Maxillofacial Prosthodontist

The Department of Surgery at the University of Alberta and the Institute for Reconstructive Sciences in Medicine (iRSM) invite applications for a full-time maxillofacial prosthodontist. The prosthodontic position will be based in the Department of Surgery, Faculty of Medicine and Dentistry as a contingent, tenure track position with a secondment to iRSM. iRSM is an internationally recognized clinical and research centre. iRSM's clinical activity is focused on reconstruction of the head and neck and its research activity is strategically directed to a broad base of reconstructive science and technology.

Profile:

Clinical Care (60%) | Research (30%) | Education (5%) | Service: (5%)

Qualifications:

Undergraduate degree in dentistry; successful completion of a graduate program (MSc or equivalent) in prosthodontics; and completion of an advanced research degree (doctorate preferred).
