The organizing committee of the conference on ‘Implantology for the Compromised Patient’ likes to draw your attention to this event in Groningen, planned from February 1-4, 2012.

Several topics will be discussed related to implant placement, suprastructures/prosthetics and implant maintenance for a wide variety of different patient groups. Keynote lectures and free oral presentations will focus on the current viewpoints and problems that are encountered, when placing and maintaining dental implants in the rehabilitation of compromised patients, e.g. oncology patients, cleft patients, oligodontia patients, handicapped patients, patients suffering from severe gagging problems, severe epilepsy, autoimmune diseases, or dementia.

Confirmed keynote speakers:

Dr. Dennis Rohner

Prof. dr. Jocelyne Feine

Prof. dr. Cees de Baat

Prof. dr. Arjan Vissink

Prof. dr. Gerry M. Raghoebar

Dr. Chiquit van Linden van den Heuvell

Ronnie Goené

Sandy van Teeseling

Marijn Créton

Hans Strooker

February 1-4, 2012

Sponsored by:

Astra Tech Benelux bv, Zoetermeer, The Netherlands
